

ADVANTAGE HMO

SUMMARY OF BENEFITS

With Tufts Health Plan Advantage HMO, health care services may be covered subject to the plan's deductible, covered with a copayment, or covered in full. The deductible is the amount you must first pay out of pocket before many services are covered. The deductible is calculated each calendar year. Once you meet the deductible, the plan covers in full services that are subject to the deductible for the remainder of the calendar year.

As an Advantage HMO member:

- You must choose a PCP from the Tufts Health Plan network of providers.
- In most cases, your network PCP must provide or authorize (provide a referral for) your care.
- You do not need a referral for emergency care.

How services are covered with Advantage HMO

In general, the Advantage HMO plan covers preventive and medically necessary health care services and supplies when they are provided or authorized by your network PCP. Services may be:

- **Covered subject to the plan's deductible:** Certain covered services—usually those used to diagnose, treat, or monitor health conditions (for example, an MRI)—are subject to the plan's

deductible. Note: Services subject to the plan's deductible may also be performed during or in conjunction with preventive services (for example, during an office visit). The individual and family deductibles for this plan are listed below.

- **Covered in full or with a copayment:** In most cases with this plan, preventive health care services are covered in full or with a copayment, and are not subject to the deductible. Generally, preventive health care services are the services your doctor provides to help you stay healthy. Preventive health services are needed at all ages. They might be office visits for preventive care for children and adults; tests (also called screenings) to evaluate your general health or the health of certain parts of your body; measurements; immunizations (or shots) for children and adults; certain advice about health; or special tests at certain times in your life. (Please visit www.tuftshealthplan.com/members to review the most recent Massachusetts Health Quality Partners preventive care recommendations for every age.)
