

HMO SELECT 20

SUMMARY OF BENEFITS

With Tufts Health Plan's HMO (health maintenance organization) Select plan, you enjoy comprehensive coverage for your health care needs, while your out-of-pocket costs are kept to a minimum.

In general, preventive and medically necessary health care services and supplies are covered when they are provided or authorized by your network primary care physician (PCP).

As an HMO Select member:

- You must choose a PCP from the Tufts Health Plan Select Network, a limited network of providers.
- In most cases, your Select Network PCP must provide or authorize (provide a referral for) your care.
- You pay the applicable copayment at the time you receive covered health care services. Please check this benefit summary for more information.

HMO Select members do not need a PCP referral for certain types of covered services, including:

- Maternity care and medically necessary evaluations and related health care services for acute/emergency gynecologic conditions, when these services are provided by an obstetrician, gynecologist, certified nurse midwife, or family practitioner in the Tufts Health Plan network
- Routine gynecologic exams and any medically necessary OB/GYN follow-up care resulting from that exam, when obtained from a provider in the Tufts Health Plan network
- Emergency care in an emergency room or a physician's office
- Mammography screening, when obtained from a provider in the Tufts Health Plan network
- One routine eye exam every 24 months, when provided by a network physician, if your plan offers this benefit

 This health plan meets Minimum Creditable Coverage standards and will satisfy the individual mandate that you have health insurance.
