

ADVANTAGE HMO

SUMMARY OF BENEFITS

With Tufts Health Plan Advantage HMO, health care services may be covered subject to the plan's deductible or coinsurance, covered with a copayment, or covered in full. The deductible is the amount you must first pay out of pocket before many services are covered. The deductible is calculated each plan year. Once you meet the deductible, the plan covers in full services that are subject to the deductible for the remainder of the plan year.

In addition, Advantage HMO is compatible with health reimbursement arrangements (HRAs), which are designed specifically to help with an individual's health care expenses.

As an Advantage HMO member:

- You must choose a primary care provider (PCP) from the Tufts Health Plan network of providers.
- In most cases, your network PCP must provide or authorize (provide a referral for) your care.
- You do not need a referral for emergency care.

How services are covered with Advantage HMO

In general, the Advantage HMO plan covers preventive and medically necessary health care services and supplies when they are provided or authorized by your network PCP. Services may be:

- **Covered subject to the plan's deductible:** Certain covered services—usually those used to diagnose, treat, or monitor health conditions (for example, an MRI)—are subject to the plan's deductible. Note: Services subject to the plan's deductible may also be performed during or in

conjunction with preventive services (for example, during an office visit). The individual and family deductibles for this plan are listed below.

- **Covered in full or with a copayment:** You pay the applicable copayment at the time you receive covered health care services. With this plan, preventive services are covered in full and are not subject to the deductible. Generally, preventive services are the services your provider provides to help you stay healthy. Preventive services are needed at all ages. They might be office visits for routine physicals for children and adults, tests (also called screenings) to evaluate your general health or the health of certain parts of your body, measurements, immunizations (or shots) for children and adults, certain advice about health, or special tests at certain times in your life.
- **Covered subject to coinsurance:** You pay coinsurance for durable medical equipment. Coinsurance is a percentage of the covered medical costs you are responsible for paying.

Out-of-pocket Maximum: Your deductible, coinsurance, and ER copays accumulate toward your out-of-pocket maximum. Once you reach your out-of-pocket maximum, you are covered in full for services subject to deductible and coinsurance.

Please note that this is a summary of benefits only. For more detailed benefit information, please refer to this plan's member benefit document.
