

ADVANTAGE HMO SAVER

SUMMARY OF BENEFITS

With Tufts Health Plan Advantage HMO Saver, health care services may be covered subject to the plan's deductible or coinsurance, covered with a copayment, or covered in full.

The deductible is the amount you must first pay out of pocket before many services are covered. The deductible is calculated each plan year. Once you meet the deductible, the plan covers in full services that are subject to the deductible for the remainder of the plan year.

In addition, Advantage HMO Saver is fully compatible with health savings accounts (HSAs), which are designed specifically to help with individuals' future health care expenses. For a list of financial institutions that administer HSAs, please see your employer or our website.

As an Advantage HMO Saver member:

- You must choose a primary care provider (PCP) from the Tufts Health Plan network of providers.
- In most cases, your network PCP must provide or authorize (provide a referral for) your care.
- You do not need a referral for emergency care.

How services are covered with Advantage HMO Saver

In general, the Advantage HMO Saver plan covers preventive and medically necessary health care services and supplies when they are provided or authorized by your network PCP. Services may be:

- Covered subject to the plan's deductible:** Certain covered services—usually those used to diagnose, treat, or monitor health conditions (for example, an MRI)—are subject to the plan's deductible. Note: Services subject to the plan's deductible may also be performed during or in conjunction with preventive

services (for example, during an office visit). The individual and family deductibles for this plan are listed below. **Note: There is no individual deductible on a family plan. If you have two or more family members enrolled in the plan and only one member receives services that are subject to the deductible in a plan year, that member alone must meet the full family deductible before services subject to the deductible are covered. The same calculation applies to the out-of-pocket maximum.**

- Covered in full or with a copayment:** You pay the applicable copayment at the time you receive covered health care services. With this plan, preventive services are covered in full and are not subject to the deductible. Generally, preventive services are the services your provider provides to help you stay healthy. Preventive services are needed at all ages. They might be office visits for routine physicals for children and adults, tests (also call screenings) to evaluate your general health or the health of certain parts of your body, measurements, immunizations (or shots) for children and adults, certain advice about health, or special tests at certain times in your life.
- Covered subject to coinsurance:** You pay the deductible, then coinsurance for durable medical equipment. Coinsurance is a percentage of the covered medical costs you are responsible for paying.

Please note that this is a summary of benefits only. For more detailed benefit information, please refer to this plan's member benefit document.
