

ADVANTAGE PPO

SUMMARY OF BENEFITS

With Tufts Health Plan Advantage PPO, most health care services are covered subject to the plan's deductible or coinsurance, covered with a copayment, or covered in full. Services are covered at two levels of benefits: the in-network level of benefits and the out-of-network level of benefits.

As an Advantage PPO member:

- You can seek covered health care services from most licensed providers in or out of the Tufts Health Plan network.
- No referrals are needed.
- You do not have to choose a primary care provider (PCP).

How services are covered with Advantage PPO

In general, Advantage PPO covers preventive and medically necessary health care services and supplies in the following ways:

- Coverage at the in-network level of benefits:** When you receive care from a provider in the Tufts Health Plan network, services may be covered subject to the plan's deductible or coinsurance, covered with a copayment, or covered in full.
 - Covered subject to the plan's deductible:** Certain covered services—usually those used to diagnose, treat, or monitor health conditions (for example, an MRI)—are subject to the plan's deductible. The deductible is the amount you must first pay out of pocket each plan year before many services are covered. Once you meet the deductible, those services are covered in full for the remainder of the plan year. Note: Services subject to the plan's deductible may also be performed during or in conjunction with preventive services; for example, during an office visit.

- Covered in full or with a copayment:** You pay the applicable copayment at the time you receive covered health care services. With this plan, preventive services are covered in full and are not subject to the plan's deductible. Generally, preventive services are the services your provider provides to help you stay healthy. Preventive services are needed at all ages. They might be office visits for routine physicals for children and adults, tests (also called screenings) to evaluate your general health or the health of certain parts of your body, measurements, preventive immunizations (or shots) for children and adults, certain advice about health, or special tests at certain times in your life.
- Covered subject to coinsurance:** Coinsurance is a percentage of the covered medical costs you are responsible for paying. You pay coinsurance on durable medical equipment until you reach the plan's out-of-pocket maximum, after which you are covered in full.
- Coverage at the out-of-network level of benefits:** When you receive care from a provider who is not in the Tufts Health Plan network, services will be covered subject to the plan's deductible and then coinsurance. When you receive covered out-of-network services, you pay coinsurance until you reach the plan's out-of-pocket maximum, after which you are covered in full up to the reasonable charge for covered services for the remainder of the plan year. You may also be responsible for paying any difference between what the plan covers and what an out-of-network provider charges for a service.

The individual and family deductibles and out-of-pocket maximums for this plan are listed in this benefit summary. Please note that this is a summary of benefits only. For more detailed benefit information, please refer to this plan's member benefit document.

Prescription Drug Coverage	For up to a 30-day supply at a participating retail pharmacy	For up to a 90-day supply through our mail order service
