

ADVANTAGE PPO SAVER SUMMARY OF BENEFITS

With Tufts Health Plan Advantage PPO Saver, health care services may be covered subject to the plan's deductible, covered subject to coinsurance, covered with a copayment, or covered in full.

Health care services are covered at two levels of benefits: the in-network level of benefits and the out-of-network level of benefits.

In addition, Advantage PPO Saver is fully compatible with health savings accounts (HSAs), which are designed specifically to help with individuals' current and future health care expenses.

As an Advantage PPO Saver member:

- You can seek covered health care services from most licensed providers in or out of the Tufts Health Plan network.
- No referrals are needed.
- You do not have to choose a primary care physician.

How services are covered with Advantage PPO Saver

In general, Advantage PPO Saver covers preventive and medically necessary health care services and supplies in the following ways:

- Coverage at the in-network level of benefits:** When you receive care from a provider in the Tufts Health Plan network, **services are covered subject to the plan's deductible, covered with a copayment, or covered in full.**
 - Covered subject to the plan's deductible:** All covered pharmacy services are subject to the plan deductible, as well as most covered medical services, generally those used to diagnose, treat, or monitor health conditions (for example, an MRI or non-routine office visits to your primary care physician or a specialist). The deductible is the amount you must first pay out of pocket each plan year before many services are covered. Once you meet the deductible, the plan covers in full services that are subject to the deductible, and you have no additional out-of-pocket expenses for the remainder of the plan year. In addition, services subject to the plan's deductible may also be performed during or in conjunction with preventive services; for

example, during an office visit. **Note: There is no individual deductible on a family plan. If you have two or more family members enrolled in the plan, and only one member receives services that are subject to the deductible in a plan year, that member alone must meet the full family deductible before services subject to the deductible are covered. The same calculation applies to the out-of-pocket maximum.**

- Covered in full or with a copayment:** In most cases with this plan, preventive health care services are covered in full or with a copayment, and are not subject to the plan's deductible. Generally, preventive health care services are the services your doctor provides to help you stay healthy. They might be office visits for preventive care for children and adults; tests (also called screenings) to evaluate your general health or the health of certain parts of your body; measurements; immunizations (or shots) for children and adults; certain advice about health; or special tests at certain times in your life.
- Coverage at the out-of-network level of benefits:** When you receive care from a provider who is not in the Tufts Health Plan network, **services will be covered subject to the plan's deductible and then coinsurance.** The deductible is the amount you must first pay out-of-pocket each plan year before many services are covered. Coinsurance is a percentage of covered medical costs you are responsible for paying. You pay coinsurance until you reach the plan's out-of-pocket maximum, after which you are covered in full up to the reasonable charge for covered services for the remainder of the plan year. You may also be responsible for paying any difference between what the plan covers and what an out-of-network provider charges for a service.

The individual and family deductibles and out-of-pocket maximums for this plan are listed in this benefit summary. Please note that this is a summary of benefits only. For more detailed benefit information, please refer to this plan's member benefit document.
