

Medical Necessity Guidelines  
Shoulder Arthroscopy:  
Diagnostic/Therapeutic Procedures

Document ID#: 2143438  
Subject: Shoulder Arthroscopy: Diagnostic/Therapeutic  
Effective Date: May 1, 2011

Clinical Documentation and Prior Authorization Required	√	Type of Review - Case Management	
Not Covered		Type of Review – Precertification Department	√
		Administrative Process (Internal Use Only)	LPN

**Please Note: Depending upon the service, while you may not be the provider responsible for obtaining prior authorization, as a condition of payment you will need to make sure that prior authorization has been obtained.**

Effective January 1, 2010 Tufts Health Plan will be requiring prior authorization for certain elective diagnostic shoulder arthroscopic procedures for Members 18 and older.

In order to obtain prior authorization for these elective diagnostic shoulder arthroscopies, an InterQual® SmartSheet™ for Shoulder Arthroscopy, Diagnostic/Therapeutic must be completed and faxed to the Tufts Health Plan Precertification Department at 617-972-9409.

InterQual® SmartSheets™ for this procedure are available by logging on to our web site and accessing the Prior Authorization InterQual® Criteria Link under the Clinical Resources section. If you are not a Tufts Health Plan Registered Provider, please click on the Provider Log-in and follow instructions.

**PROCEDURES REQUIRING PRIOR AUTHORIZATION:**

Tufts Health Plan will be using the InterQual® SmartSheet™ for the following diagnoses and associated CPT codes only:

Associated CPT Code <sup>1</sup>	Description/Diagnosis
29805	Chronic monoarticular joint pain
29805	Suspected joint infection
29805	Suspected rotator cuff tear

<sup>1</sup> A complete description of the associated CPT codes is included within this Medical Necessity Guideline

Codes

The following CPT codes require prior authorization:

Code	Description

29805	Arthroscopy, shoulder, diagnostic, with or without synovial biopsy (separate procedure)
-------	---

- April 2010: Reviewed at MSPAC, no changes.
- April 2011: Reviewed by MSPAC. No changes.

## Background, Product and Disclaimer Information

Medical Necessity Guidelines are developed to determine coverage for Tufts Health Plan benefits, and are published to provide a better understanding of the basis upon which coverage decisions are made. Tufts Health Plan makes coverage decisions using these guidelines, along with the Member's benefit document, and in coordination with the Member's physician(s) on a case-by-case basis considering the individual Member's health care needs.

Medical Necessity Guidelines are developed for selected therapeutic or diagnostic services found to be safe, but proven effective in a limited, defined population of patients or clinical circumstances. They include concise clinical coverage criteria based on current literature review, consultation with practicing physicians in the Tufts Health Plan service area who are medical experts in the particular field, FDA and other government agency policies, and standards adopted by national accreditation organizations. Tufts Health Plan revises and updates Medical Necessity Guidelines annually, or more frequently if new evidence becomes available that suggests needed revisions.

Medical Necessity Guidelines apply to all fully insured Tufts Health Plan products unless otherwise noted in this guideline or the Member's benefit document. This guideline does not apply to Tufts Health Plan Medicare Preferred or to certain delegated service arrangements. For self-insured plans, coverage may vary depending on the terms of the benefit document. If a discrepancy exists between a Medical Necessity Guideline and a self-insured Member's benefit document, the provisions of the benefit document will govern. Applicable state or federal mandates will take precedence. Providers in the New Hampshire service area are subject to CIGNA HealthCare's provider arrangement for the purpose of CareLink<sup>SM</sup>.

Treating providers are solely responsible for the medical advice and treatment of Members. The use of this guideline is not a guarantee of payment or a final prediction of how specific claim(s) will be adjudicated. Claims payment is subject to eligibility and benefits on the date of service, coordination of benefits, referral/authorization, utilization management guidelines when applicable, and adherence to plan policies, plan procedures, and claims editing logic.
